Christopher Barner-Kowollik	Karlsruhe
Bernd Bruchmann	BASF SE
Andreas Greiner	Bayreuth
Rainer Haag	Berlin
Katharina Landfester	Mainz
Sabine Ludwigs	Stuttgart
Martin Möller	Aachen
Georg Oenbrink	Evonik
Günther Reiter	Freiburg
Holger Schoenherr	Siegen
Ulrich Schubert	Jena
Rudolf Zentel	Mainz

DESTINATION AND VENUE

With its unique baroque heritage, notable art treasures, architectural landmarks and charming landscape, Dresden is one of the most beautiful cities in Germany and beyond.

The congress is held in the modern and ample International Congress Centre Dresden (ICCD) located at the banks of the river Elbe in direct neighbourhood and with splendid view to the marvellous city centre of Dresden.

DEADLINES

Abstract submission	January 15, 2015
Notification on acceptance	March 15, 2015
Early registration	April 15, 2015

ABSTRACT SUBMISSION

We invite you to submit abstracts for oral and poster contributions related to the congress topics by January 15, 2015.

Please submit your one-page abstract prepared strictly according to the guidelines online via the congress website.

EXHIBITION AND SPONSORING

An industrial exhibition is integrated in the congress program and will be installed at the exclusive terrace floor of the conference venue. For details on options and conditions for exhibitors and sponsors please consult the website or contact the organizers.

CALL FOR PAPERS

EUROPEAN POLYMER CONGRESS

INVITATION

On behalf of the European Polymer Federation (EPF), the German Chemical Society (GDCh) and the Leibniz-Institut für Polymerforschung Dresden e.V. (IPF) it is my honor and pleasure to invite you to the European Polymer Federation Congress 2015.

Polymeric materials are essential for a sustainable development of the society and the basis for innovations in modern technologies. They contribute significantly to advance in life science, mobility, and communication technologies, and address essential challenges of energy and environment. All these cutting-edge topics will be in the focus of the congress.

Invited plenary and keynote talks given by renowned speakers from leading international groups as well as numerous contributed papers and posters will present latest trends and results. With the topics chosen and the expected high number of participants from different areas of polymer science and neighbouring fields, the EPF congress will be a platform for inspiring international and interdisciplinary exchange at the forefront of polymer science. Hence, it will provide breeding grounds and act as a catalyst for novel co-operative approaches beyond traditional disciplines and co-operations between research and industry, which are necessary to cope with the challenges polymer science is facing.

Brigitte Voit
President of the European Polymer Federation

TOPICS

- ◆ Advances in macromolecular synthesis: From precision polymer structures towards interactive polymer materials
- ◆ Nanomaterials and composites: Preparation, characterization, processing, modelling, application
- ◆ Polymers meet biology: Bioinspired and bioactive polymers, biohybrides and polymers at the biointerface
- ◆ From polymer science to soft matter science
- ◆ More with less: Polymers address challenges of resources, sustainability, and energy efficiency
- ◆ The post-silicon age: Polymer and organic electronics
- ◆ European Australian Symposium

PLENARY SPEAKERS

Kristie Anseth	University of Colorado Boulder, USA
Vincenzo Busico	Università de Napoli, Italy
Antonio Facchetti	North Western University, USA
Ilias Iliopoulos	ARKEMA, France
Eugenia Kumacheva	University of Toronto, Canada
Tom McLeish	University of Durham, United Kingdom
Klaus Müllen	Max Planck Institute of Polymer Research Mainz, Germany
Karen Wooley	Texas A&M University, USA

LOCAL ORGANIZING COMMITTEE

Brigitte Voit	Kerstin Wustrack
Manfred Stamm	Juliane Jeschke
Carsten Werner	Antonio Reguero
Jens-Uwe Sommer	Kerstin Gajek
Gert Heinrich	Silvia Kirrwald
Rainer Jordan
